### Research Assignment - 3 current event stories

The student is to research and read three current event articles found at [www.lesclesjunior.com](http://www.lesclesjunior.com). Articles can cover topics such as politics, sports and leisure and family life. The student should read each article several times to make sure they have a good understanding. They will then write a summary of each article. The student will also be responsible for making at least two grammar points per article. In class, each student will present his/her articles, summaries and grammar points. This is their first major grade.
